

## Demand

Poisson lander arrivals by class  
Manifest sampler, 5 classes  
Bulk lots (regolith, feedstock)  
Return items (trash, samples)

## Environment

9-site graph, slope classes  
Lunar night (dark share f)  
Earth-Moon latency, fan-out  
Faults (MTBF, MTTR), duties

## Event engine

LANDING, READY, FREE,  
TICK, WAKE, REPOS, DUTY  
Prices each job: approach,  
loading, slope, night,  
latency, faults  
Logs delays, km, energy,  
cost, revenue

## Dispatch mechanism

In-house (bilateral contracts)  
Pooled greedy  
Batched assignment  
Marketplace (ours)

## Fleet

LTV 1.5 t, HAUL 10 t,  
MICRO 0.3 t; owner, standards,  
autonomy, battery, night  
capability; revenue per owner

landings,  
lots

waiting cargo,  
free vehicles
